By Kamab Kiewiet, this grandson of Kamab Kookaburra, is out of one of Kamab's top females (ICP of 368). Kev has amazing balance & capacity. He has a positive EMA EBV & middle of the road growth. Pedigree, low DTC & high SS all suggest great fertility. Kev is THE bull to build a profitable commercial herd upon & would be an asset to any stud breeder!

Zane represents a new bloodline offered by Kamab. His sire, Malemba Christoph, was imported from South Africa by Kamab and his progeny have made a positive contribution to the genetic base that makes up the Kamab herd. Not recommended for heifers, however Zane will produce heavy weaners & heavy steers.
